

Medical Excuses from Physical Education require alternate assessments for skill and participation. The written knowledge assessment will still account for 20% of the student's grade. The other 80% will be an assignment due each week. **This report must be received by the teacher at the end of each week. No late work will be accepted.**

If the student is absent for an extended period of time, individual arrangements can be made. Please see your teacher personally. Do not ask another student to hand in your reports.

***8 Assignments: 1-3 will be done twice, once for each of your two Physical Education activities (i.e. Volleyball and Tennis). 4 and 5 are once per marking period.***
